**LICENSE FOR FOREIGN FILING UNDER  
Title 35, United States Code, Section 184  
Title 37, Code of Federal Regulations, 5.11 & 5.15**

**GRANTED**

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

**NOT GRANTED**

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

**TITLE OF THE INVENTION:**

**ILLUMINATING APPRATUS**

**TECHNICAL FIELD:**

This invention relates to an illuminating apparatus adapted to illuminate object members by using a light guide member.

**BACKGROUND ART:**

The related art illuminating apparatuses include, for example, illuminating apparatuses shown in Figs. 10 to 12.

The illuminating apparatus shown in Fig. 10 is provided with a pointer 52 adapted to be turned around a rotary shaft 51, a dial 53 constituting a display member positioned at the rear side (lower side in the drawing) of this pointer 52 and transmission illuminated, a hard circuit board 54 positioned at the rear side (lower side in the drawing) of this dial 53 and formed of a glass epoxy resin, light-emitting diodes 55, 56 provided on this circuit board 54 and serving as light sources for illuminating the pointer 52 and dial 53 respectively, a cylindrical partition 57 defining regions to be illuminated by the light-emitting diodes 55, 56 respectively, and a meter body 58 fixed to the rear side (lower side in the drawing) of the circuit board 54 and adapted to turn the rotary shaft 51.

In the pointer 52, an indicating member 59 and a pointer base portion 60 fixed to the rotary shaft 51 are formed in one
